Solutions for gates and barriers

Sulzer is an expert in providing you with a complete service package. We will support you through the consultation, project management, supply, installation and maintenance of your security systems, across the UK.

Experienced in all types of electric security equipment including: powered, sliding and crash gates, barriers, turnstiles, shutters, fencing systems, CCTV, control systems, road blockers, bollards and their associated equipment.

Whenever you are in need of support, Sulzer offer you a 24 hour 365 days a year service.

Preventative maintenance

To ensure the smooth operation of your systems, take advantage of planned routine health checks to safe guard you against unexpected failures.

As part of our contracted support package, you can rest assured that should you experience a breakdown or failure, our team of experts will be on-site to support you, when you need us most.

Sulzer ensure you meet your health and safety obligations by carrying out planned maintenance along with the required safety checks on your equipment, to guarantee compliance of the relevant regulations.

New installation

As your partner from start to finish, our team at Sulzer will work with you to understand every aspect of your project.

Understanding your scope is our first port of call, we will take time to understand your site, work alongside your builders and ensure that all specifications and proposals take in to account the local area. We will help you to avoid situations where costly errors could occur, for example with road cabling.

With trusted relationships with the OEMs like Betafence, Parking Facilities, CAME, FAAC, and BFT, we take away all of the procurement pain points, focusing on turnkey solutions that keep your operations running smoothly.

Life extension

When equipment or components are seeing signs of aging, wear, recurring faults or evidence they are no longer fit for purpose - Sulzer has the expertise to recommend you solutions to cover refurbishment, modifications or upgrades.

Sulzer offers one-off repairs on single pieces of equipment through to full maintenance and reactive breakdown packages for all of your managed sites - for further information contact us using the details below.
