

- Customized solutions
- Reduced maintenance costs
- Improved reliability

Chengdu service center

Sulzer is one of the world's leading manufacturers of centrifugal pumps and service provider for rotating equipment. We are dedicated to improving our customers' pumping processes and operational reliability. Our service team responds to industry needs and is focused on ensuring high performance for all makes of rotating machinery. With an extensive global network of service centers, Sulzer is your ideal local service partner.

Resources and facilities

Our comprehensive workshop facility in Chengdu is fully equipped to overhaul and repair all types of rotating machinery. Additional spare parts support is provided by Sulzer's global network of spare parts manufacturing centers. The office center houses engineering, contract administration and sales staff providing services for a wide range of hydraulic, mechanical and metallurgical problems. For complex projects, Sulzer's engineering and technology groups provide the center with industry leading mechanical design and hydraulic development support.

Service expertise
