

Denver (Rocky Mountain) service center

Sulzer is a global partner delivering reliable and sustainable solutions for your key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. With a network of over 180 Sulzer production and service centers around the world, we are close to our customers with easily accessible locations.

Resources and facilities

Sulzer's comprehensive service center in Denver, Colorado is fully equipped to maintain and repair all types of vertical, horizontal and centrifugal pumps. Over 20'000 ft² of shop space houses complete machining and welding capabilities, underneath 10 tons of overhead crane capacity. Projects are completed by a highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.
