

La Porte service center

Sulzer is a global partner delivering reliable and sustainable solutions for your key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 100 service locations worldwide.

Resources and facilities

Sulzer's comprehensive electromechanical service center in La Porte, Texas is fully equipped to maintain, repair and sell a wide range of large electric motors and generators for customers in refining, petrochemical, power generation, steel, mining and heavy-manufacturing industries. This service center is also an authorized new motor distributor for many leading OEMs. Over 26,000 sq ft of shop space houses complete electrical, machining and welding capabilities, underneath 30 tons crane capacity. Projects are completed by a highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.
