

Orange service center

Small steam turbomachinery repair

Sulzer is a global partner delivering reliable, sustainable solutions for key applications. We offer repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 100 service locations worldwide.

Resources and facilities

Sulzer's service center in Orange, Texas, provides comprehensive repair and maintenance services for small steam turbines 24/7. Our experts offer unrivaled experience in boosting the reliability and performance of equipment operating in conventional power generation, geothermal, heavy-manufacturing, petrochemical and steel applications. Extensive electrical, machining and welding facilities are matched with a 20'000 sq.ft. climate-controlled storage area and heavy-duty overhead craneage. A complete, turnkey approach to projects enabled by in-house engineering teams, project managers, sales managers, technicians and skilled craftsmen ensures quality repairs and overhauls.
