

Semenyih service center

Sulzer is your global partner with reliable and sustainable solutions for your key operations. You benefit from a local service provider with global experience in the repair and maintenance of all types of rotating equipment. In Southeast Asia you are supported by a network of five service centers located across four countries.

Discover newfound performance and longevity for your equipment at the Semenyih service center in Malaysia. The facility supports key industries locally including power generation, oil and gas and petrochemical industries. Projects are completed by highly experienced engineers and technicians and are complimented by local field service engineers.
