

# SULZER

## Rotating equipment services in Indonesia

Sulzer offers technical servicing solutions across an extensive suite of rotating equipment such as pumps, turbines, generators, compressors, motors and more, ensuring operational continuity for industrial facilities in major industries such as oil and gas, power generation and mining.

# The Sulzer advantage

Through our extensive network of over 100 service sites around the world, Sulzer provides cutting-edge parts as well as maintenance and repair solutions for all types of rotating equipment inclusive while not limited to pumps, turbines, compressors, motors and generators. We service our own original equipment, but also all associated third-party rotating equipment operated by our customers, maximizing sustainability and life cycle cost-effectiveness. Our technology-based solutions, fast execution and expertise in complex maintenance projects are what makes Sulzer the trusted servicing partner for many major critical facilities and industrial giants across the globe.

## Sulzer services in Indonesia

Established in 1994, PT Sulzer Indonesia has grown strength to strength over the years, growing progressively in scale and capabilities, delivering superior rotating equipment services across multiple industry segments. With a staff strength of over 200 and renowned reputation for responsiveness, superior quality and effective solutions, we're the choice rotating equipment servicing partner for major IPPs, national utilities and major industrial facilities. We're also constantly innovating to deliver cutting-edge engineering solutions to support our customers' demands for operational uptime, reliability, and energy efficiency.

25+

years of experience

1'000+

steam and gas turbines serviced

400+

compressors serviced

500+

pumps serviced and retrofitted

300+

generators serviced

50+

GW of turbines serviced

Certifications highlight

# Industries we serve

We are your partner for uptime and enhanced performance for your rotating equipment and more. Our dedicated people provide unrivalled service and expertise to meet your operational needs – anytime, anywhere.

**Power generation**

**Upstream oil and gas**

**Downstream oil and gas**

**Petrochemicals and fertilizers**

**Mining and metals**

**General industries**

# Our service centers

Key specifications	Purwakarta service center and headquarters	Balikpapan service center
Floor area	7'394 m <sup>2</sup>	1'005 m <sup>2</sup>
Crane capacity	Up to 60 tons	Up to 10 tons
Dynamic balancing	Portable- up to 50 and 100 tons	Portable- up to 5 tons
CNC vertical lathe	3 axis-Large	~
CNC bridge	5 axis-Large	~
CNC universal milling machine	AMCO-SACEM FPF-4500	~
SAW	Portable submerged arc welding station	~
Stacking pit	Up to 9 m (height) and 4 m (diameter)	~
Other major equipment	NDT equipment 3D scanners Complete field servicing equipment Fully equipped machine shop Complete engineering and CAD tools
