

Colombia service center

Sulzer is a global partner delivering reliable sustainable solutions for key applications. We offer expert repair and maintenance services from a single access point for turbines, compressors, pumps, generators and motors. By operating one of the largest service networks in the industry, we are close to our customers with more than 180 production and service locations worldwide.

Resources and facilities

Sulzer's comprehensive pump service center in Cota, Cundinamarca is fully equipped to maintain and repair a wide range of pumps for customers in geothermal and conventional power generation, petrochemical, steel and heavy manufacturing industries. Over 12'700 ft² of shop space houses complete electrical, machining and welding capabilities as well as 10 tons of bridge overhead crane capacity. Projects are completed by a highly experienced staff of engineers, project managers, sales managers, and technicians combined with a crew of dedicated craftsmen.
